

Honor Air honors local veterans

Hometown News April 18,2008

Hats off to several groups of DeLand area Rotarians who funded a trip that will take 100 veterans from all over our area to see the World War II Memorial in Washington, D.C.

The groups raised \$65,000 to take these men and women who sacrificed so much for this country to the memorial that honors them.

The effort is called Volusia Honor Air, and along with the veterans, Volusia County Sheriff Ben Johnson, several deputies, doctors, nurses and other chaperones will fly to the capitol May 17.

WESH is honored to go along as witness to what is bound to be a remarkable and emotional daylong journey.

Through donations, Honor Air hopes to bring another group of veterans to the memorial in September.
